

NEW Spitfire P560 Powder Actuated Disc Cartridge Tool

The NEW Spitfire P560 is a perfect addition to the powder actuated range of tools for structural steel applications and is developed to fulfil the latest market requirements. The tool provides easy access to confined spaces.

Eurocode & Description

Eurocode	Box Qty
013891 Spitfire P560 with magazine	1

Technical Specification

Weight	
- without magazine:	3.7kg
- with magazine:	4.2kg
Dimensions:	277 x 363 x 77mm
Impact force:	520 J
Magazine capacity:	10 pins
Vibration HAV:	7.6m/s ²

Substrates

- Steel

NEW

Best balanced and most compact tool on the market

Kit Contains:
Spitfire P560, high impact lightweight carry case, safety goggles to EN166:B, cleaning cloth, cleaning brushes, lubricating oil, 1 ring, safety gloves, ear protection and instruction manual.

ETA - 08/0040 on HSRB 14
C.I.P. APPROVAL N° 001137

Product Advantages

- Easy access to confined spaces** - Small and light tool gives perfect handling
- Easy re-load system** - Will speed up working time on all applications
- Easy maintenance** - Easy to disassemble and clean without tools
- Compact design** - Smaller and lighter than competitor's tools
- Stability STAB system** - Allows user to safely place tool when not in use
- Quick unlock system** - No tools required to disassemble the tool
- 10 pin magazine** - For continuous work

Stability STAB system:
Allows user to safely place tool down when not in use

Features:

- Easy re-load system
- Easy maintenance system
- Strong aluminium body
- Quick un-lock system
- 360° rotation magazine integrating a 90° ratchet
- 10 pin magazine

Cartridges

A wide range of cartridge strengths available allows successful fixing to most steel sections.
